OSAMA KHALED

Front End Developer - ReactJS

Dakahlia, Mansoura | 01121451306 | @gmail | @portfolio

SUMMARY

I am front-end developer leveraging modern JavaScript tools and frameworks including ReactJS to create responsive websites and web applications.
I am constantly learning new features and tools that will enable me to present a better website than just relying on the knowledge i already have.

SKILLS

HTML	ReactJS	Chakra UI	Git & Github
CSS	Redux & Redux Toolkit	Framer Motion	Vite
JavaScript	Tailwind	Formik	
Scss	Bootstrap	Swiper	

EDUCATION

bachelor's degree in Management Information Systems.   **2018 - 2022**

Delta Academy For Science and Technology

Militarty Status: Exempted

PROJECTS

E-Store

- E-commerce platform built with React.js, presenting a user-friendly interface for online shopping.
- Utilized Chakra UI to create responsive, accessible, and performant user interfaces.
- Redux was used as a database to hold user account information, wishlist items, and cart contents.
- Each account has its own data.

Meditate

- The site showcases my portfolio with diverse projects, highlighting skills in modern languages and tools, and employs interactive design for engaging user experiences.

Constructs

- An online portfolio for a straightforward website development and construction company that includes a detailed history of the business and an overview of the services offered

Journey

- Implemented responsive design principles to ensure accessibility across various devices, providing an optimal viewing experience for all visitors.

Wotah

- a portfolio for a company
